

# CARDBOARD CRUSADERS

## The story...

Play as Flynn, an imaginative child of 8 in this third person tower defense game. You're charged with protecting your cardboard castle when toys come to life. Build and manage turrets, while using magic and special attacks to defend your castle from the onslaught of enemy waves. Will Flynn be able to keep the toy monsters at bay and save his creation?

## • What can you do in the world...?

You must place turrets and defenses to both decide the path the enemies take as well as slow them down during their approach. With every enemy vanquished you will be rewarded with candy coins. These are used to trade for turrets, defenses, and upgrades. The longer you're able to stand against the enemies the more complicated the field will become as you decide the routes the enemies shall take. Defend against the waves of enemies for as long as you can!

## What makes Cardboard Crusaders unique:

- A third person tower defense game where the player fights alongside the turrets to defend the castle!
- Play as a Knight who uses a sword and shield to attack and stun enemies or a Mage who specializes in long range area of effect spells!
- Through placing turrets and defenses, the player can alter the path of the enemies!
- Upgrade your turrets to improve their performance in battle!
